## soul maps

Kabbalah to navigate your inner world

### GPS for Your Soul

Ever feel like you are running around in circles? You can feel caring and nurturing one moment, self-centered and aggressive the next. Making sense of your thoughts and emotions is not easy, and you can often feel conflicted and overwhelmed.

How can you navigate your inner complexity and chart a clear path for yourself? Our upcoming course, *Soul Maps*, introduces you to *Tanya*, a 200-year-old text with a revolutionary approach to human psychology. The course is structured as a six-session consultation with a Kabbalistic master, to help you understand yourself and navigate your inner conflicts. You'll learn to resolve guilt, conflict, and confusion, and to traverse life's journeys with joy, purpose, and direction.

Real Learning for Real Life.
